

## STATE AUTHORIZATION FORM

DEAC Standard XII.E. requires that the institution be properly licensed, authorized, exempted, or approved by all applicable state education institutional authorizations (or their equivalent for non-U.S. institutions) and that exemptions from state law be supported by state-issued documentation or in statutory language for that state. Proper state authorization in an institution's state of domicile is a prerequisite for DEAC accreditation and required to maintain accredited status.

This State Authorization Form is intended to be used and submitted with institution's Application for Accreditation, Self-Evaluation Report, and substantive change applications to assure compliance with states' authorization, licensure, and exemption requirements. Institutions should select the appropriate check box next to each relevant state and territory in the United States and include the date the authorization, licensure, or exemption was received or indicate if authorization is still pending and provide the date documentation was submitted. If not applicable, check the appropriate box and provide a brief explanation.
